Electronic Interface Technologies covered by US and Foreign Patents / Patents Pending

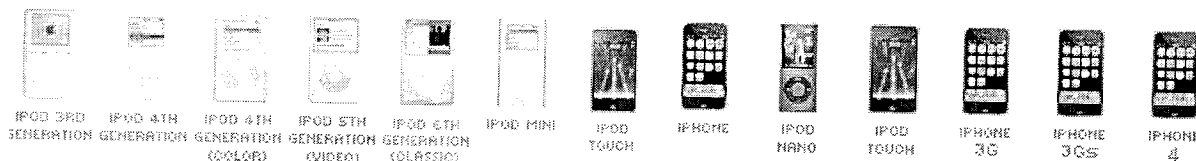

US Patent Number 7,489,786

Congratulations and thank you for purchasing the AUDI/M-LINK V.1B interface. The most advanced auxiliary audio input interface available for Audi radios.

**Audi** **Compatible Audi Models:** Connects to 20 pin connection behind radio, not for use if Factory SAT radio retention is desired

<b>A3 2005-2006 &amp; 2007 w/o Nav</b>	<b>A8 1998-2003</b>
<b>A4 1998-2005 &amp; 2006 w/o Nav</b>	<b>Allroad 2001-2008</b>
<b>A6 1998-2004</b>	<b>TT 2000-2008</b>

**INSTALLATION INSTRUCTIONS:**

- 1) Remove radio from dash.
- 1) Connect the single wire from Blitzsafe adapter to Radio chassis ground. (use one of the screws on radio)
- 2) Disconnect the top harness from the radio (either blue, green and yellow or one solid black connector) and connect it to the red connector on the Blitzsafe interface.
- 3) Connect the blue, green and yellow connector on the Blitzsafe interface into the top port in the radio where you removed the OEM connector.
- 4) Connect the black connector to the bottom of your iPhone or iPod.
- 5) Re-install the radio completely into the dash before powering on the radio.
- 6) With the radio off, turn the ignition to the on position, turn the radio on.
- 7) To listen to the iPhone or iPod press the CDC or Mode button.
- 8) The radio will display Disc 1 Track 99 and the audio will play thru your factory radio.
- 9) As soon as the vehicle is shut down, this interface will charge the iPhone or iPod for an additional 20 minutes.
